[REACTJS, NEXTJS, TAILWINDCSS, TYPESCRIPT, SUPABASE, GIT, MYSQL, CONTENTFUL CMS]

PROFESSIONAL SUMMARY

Programmer with more than four years of experience as a web developer. Supported a B2B company by maintaining legacy systems and building internal web apps; joined a startup as a frontend developer; and given the opportunity to be part of a team for data integration from a CRM to a client website.

WORK EXPERIENCES

APPLICATION DEVELOPMENT TEAM LEAD, ACCENTURE PH — JUNE 2022 - APRIL 2024

I was part of the Salesforce team where I was involved in two projects. As a JavaScript developer for a government website and a team lead for the integration team for an insurance company.

- **Web Survey** - Using Salesforce Marketing Cloud, created a web survey for select pages on client's website using pure javascript.
- **Recommendation Section** - Using Salesforce Einstein recommendation, built, using javascript, a section on the client's website where users can see recommended services and/or products based on their history.
- **Data Integration** - Assigned as developer and lead of the integration team to build the correct data from salesforce that will be sent to client's insurance website using Apex.

[Javascript, Apex, REST, Salesforce Object Query Language (SOQL), Git, Postman]

JUNIOR DEVELOPER, MORIVY DATA AND TECHNOLOGY — NOVEMBER 2021 - JUNE 2022

My first experience at a startup.

- **Bookkeeping App** - Assigned as a frontend dev for a web app for customers to upload payments they made for services provided by the company.
- **Dashboard Pages** - Assigned as a frontend dev for the dashboard pages for the company services using Ant Design Charts.

[ReactJs, NextJs, MySql, Tailwind, Git]

WEB DEVELOPER, RESOURCE BOX INT'L — JANUARY 2018 - AUGUST 2021

My first job as a developer.

- **Pricing Portal** - Built a ticketing web app used by our pricing dept and Sales team for negotiating better pricing for customers.
- **Customer Registration Portal** - Built a web app for our compliance dept to register a customer who has submitted complete requirements for them to access our customer ordering portal and formulary.
- **Supply Chain Management Portal** - Built a ticketing web app for supply chain dept and pricing dept for negotiating better supplier pricing.

[PHP, Javascript, jQuery, MySql, REST, Bootstrap, Git]
